- Ongoing professional development in data science, digital marketing, and multimedia storytelling

KEY PROJECTS

2024 Turkey Local Elections (Interactive Data Analysis)

Developed interactive visualizations of the April 2024 local election results with city-by-city party control changes and vote counts to illustrate political shifts.

İzmir Traffic Accident Report (Data Journalism, 2024)

Analyzed a 17,000-row dataset of vehicle crashes to map accident frequency, locations, and timelines in İzmir, producing an interactive report highlighting traffic safety trends.

İzmir Residents' Hometowns (Data Visualization, 2024)

Designed a Python-based map showing the provinces of origin for residents of İzmir by district.

İzmir Public Transportation Usage (Data Analysis, 2019-2023)

Used municipal open data (~16,000 records) to visualize usage patterns of İzmir's transit system (buses, metro, ferries, İZBAN) through a Dash (Python) web app.

İzmir Emergency Meeting Points Map (GIS Project, 2023)

Mapped official designated emergency gathering locations in İzmir using government data, creating an interactive web map.

"Emergency Solutions" Documentary (Video Project, 2022)

Directed and produced a mini-documentary on "Acil Çözüm" (Emergency Solutions), a municipal infrastructure program, showcasing its impact on underserved neighborhoods.

PUBLICATIONS

- **Master's Thesis (2019):** "News readers' perception of clickbait news" (Kadir Has University)
- **Data-driven articles** including "Turkey elections: 'Red wave' conquers Anatolia" (April 2024)
- **Speaker** at local media workshops on data journalism and social media strategy

LANGUAGES

- **Turkish:** Native proficiency
- **English:** Professional working proficiency
